## ROVER TRAVELLER COMPANY

SF 182/B2, Vellore Road, Ondipudur Post, Coimbatore - 641 016.  
Office : +91 98420 10524  
Email : [rover\\_trav@yahoo.com](mailto:rover_trav@yahoo.com)

**Rover**  
Experience - Excellence

**ROVER** Traveller Company has carved a niche market for its spinning and doubling Ring Travellers in Domestic and International markets since 2003. With vast experience of its promoters, highly precise machines and adaption of latest process technologies, ROVER ensures delivery of high quality Ring Travellers. ROVER has a versatile range and surface finishes suitable for varied yarn types and high speed spinning applications.

## Traveller Finishes

### INDIGO

- Diffusion Treated Travellers
- Special Surface Treatment provides consistent running conditions for all yarn types and counts

### ENDURA

- Specially Coated Travellers
- Additional coating with improved gliding properties suitable for man made fibres and blends

### NICKEL +

- Nickel Plated Travellers
- Surface coating with low friction values ideal for cotton, blends and aggressive fibres.
